WORK EXPERIENCE

MBC Group - Shahid   **Oct. 2022 – Present**
Associate Software Development Engineer   *Amman, Jordan*
- Using React Native to implement new features, fix bugs and do enhancements to the IOS mobile app.
- Cleaning up and refactoring code, and reducing startup time and API calls for the app greatly
- Handling state management with different tools like Redux and Context.
- Working in an agile environment, giving time estimations and performing my tasks in a timely manner.

Pythys   **Feb. 2021 – Oct. 2022**
Software Developer   *Kuwait, Remote*
- Project manager to two projects. Worked in an agile environment, created sprints, met with clients, divided the work among my team, and offered the team help on a regular basis.
- Used different technologies on the client-side including HTML, CSS, JavaScript, TypeScript, React.js, Next.js and Vue.js to build fully responsive websites.
- Wrote server-side logic using Java and Groovy. Created SQL entities and made REST APIs to link the Back-End with the Front-End.
- Designed mobile applications using React Native and handled state management with Redux.
- Styling websites to match UX designs using CSS, Sass, Tailwind and Bootstrap.
- Used Git in a team environment to coordinate the work among my team and to keep track of changes.

Appen   **Dec. 2019 – Present**
Translator/Transcriber (part-time)   *Remote*
- Translating and transcribing linguistic material in Arabic and English.
- Was one of the top performers in multiple projects that I've been a part of.

EDUCATION

Al- Balqa' Applied University   **Jan, 2019**
BS Degree in Mechatronics Engineering   *Amman, Jordan*
- Graduated with a very good GPA (3.22)
- Studied different topics like C++, Microcontrollers, Arduino, Encryption/Decryption and Logic gates.
